

Case Study: Jane Systems and Eildon Housing

CARE AND SUPPORT WITHOUT BORDERS

Established in 1973, Eildon Housing has become a byword for care, support and respect throughout the Scottish Borders.

Over 50 properties spanning the Border region provide high quality sheltered housing, retirement housing, disability housing and outreach services. What each one has in common is the individual care and attention afforded to every resident.

When your staff put so much effort into the wellbeing of others and invest so much of themselves in their day to day work, the very least they deserve is a HR and payroll service that pays close attention to their training and development, and guarantees timely, accurate payment of their wages.

For over a decade, Eildon Housing has trusted Jane Systems to provide that service. We don't just take responsibility for that. We take pride in it.

In the words of Eildon Finance Manager Laura Notman:

“We have used Jane Systems for a number of years and we particularly like the Jane helpdesk and the online knowledge base. The direct contact offered by Jane is a definite plus. Queries are answered timeously and with expertise. Legislative changes and system changes are well communicated enabling us to operate an efficient payroll system”

We can't always predict what legal or technological developments are around the corner, but one thing we can state with confidence is that Jane Systems will continue to keep clients informed and protected. That's true for Eildon Housing and it's true for everyone else we work with.

Jane Systems – if it matters to you, it matters to us
